The FMP Ultimate key closed every data gap we had

17 / 17
FMP checks pass
(old plan: 0 / 17)

20
earnings calls ingested
(4 per stock)

5 / 5
stocks with Strong evidence
(was 0 / 5)

10 → 0
'Not found' answers
(same 20 questions)

23 / 24
answers fully grounded
(retest run)

0
conflicts in 130 figures
checked vs database

Cost: ≈ $2.50 of Claude usage for all testing plus the research re-run · FMP calls well within the Ultimate quota

Unchanged by design: trading verdicts. Company evidence adds context; it never upgrades a strategy.

WHAT WE DID

Tested the new key
17 live checks on everything the old plan refused

Ingested earnings calls
latest 4 calls x 5 stocks, by speaker, prepared vs Q&A

Filled MU and SNDK
statements, earnings, 10-K/10-Q notes

Retested failed jobs
same questions, full 5-stock research run

Fixed what retest exposed
retrieval + number checks, with tests

Everything the old plan refused now works

Capability	Old plan	Ultimate	What we found
Earnings-call transcripts (all 5 stocks)	Refused	Works	MU 81 · TSLA 61 · GS 79 · MSFT 83 · SNDK 4 calls; ~50,000 characters each
Micron and SanDisk financial data	Refused	Works	statements, earnings, 10-K/10-Q notes
More than 5 periods per request	Refused	Works	12 quarters returned in one call
Quarterly ratios, metrics, segments	Refused	Works	previously annual only
12-month SEC filing search	Refused	Works	previously year-to-date only
Press releases and stock news	Refused	Works*	*headlines + short summaries only, often third-party: not used as evidence

17 live checks on 9 Oct 2026; old-plan refusals recorded on 8 Oct 2026 (HTTP 402 'Restricted Endpoint').

Company evidence went from patchy to strong for all five stocks

18 → 45

documents

1,708 → 2,965

searchable passages

0 → 20

earnings calls (763 passages)

0 → 30

statement rows each for MU and SNDK

Six of eight failed jobs fixed; two are data limits, not plan limits

Job	Before	After retest	Status
Earnings-call transcripts (5 stocks)	Refused by plan	20 calls ingested, searchable	Fixed
MU and SNDK company data	Refused by plan	Statements, earnings, notes, calls	Fixed
Same 20 research questions	10 of 20 'Not found'	0 of 20 'Not found'	Fixed
Guidance / outlook questions	Not found or wrong source	Answered from CFO remarks on the call	Fixed*
Automatic number checks (24 answers)	15 of 24 passed	23 of 24 passed; 0 of 130 figures conflict	Fixed*
Micron 'Not found' on financials	No data (plan)	Answered from FMP statements	Fixed
SNDK weekly backtests (120)	Fail: too little history	Still fail: <150 weekly bars	Data limit
GS annual-report notes	No text in FMP report	Same on Ultimate	Data limit

**Fixed in our own code during the retest (retrieval and number checks), each with automated tests.*

We can now compare what management said with what happened

SNDK

Said vs actual

- Q3 call guided Q4: revenue $7.75–8.25B, EPS $30–33
- Reported Q4: revenue $8.97B (FMP statements), non-GAAP EPS $39.25 (Q4 call)
- Guide beaten on both

CFO Luis Visoso · Q3 + Q4 FY2026 calls

MSFT

Guidance changed

- CY2026 capex: ~$190B (Q3 call) → ~$175B (Q4 call)
- after extending data-center useful life 15 → 25 years
- FY27: double-digit revenue and operating-income growth

CFO Amy Hood · Q3 + Q4 FY2026 calls

TSLA

Guidance held

- 2026 capex 'more than $25B' on both calls
- New on Q2 call: debt facilities of up to $30B
- Free cash flow negative 'as previously guided'

CFO Vaibhav Taneja · Q1 + Q2 FY2026 calls

MU

Next-quarter guide

- Q1 FY27: single-digit bit growth, double-digit cost declines
- HBM pricing for 2027 raised significantly
- FY27 R&D up 'more than $1 billion'

Q4 FY2026 call (Q&A)

GS

No numeric guidance

- Focus on 3–5 year earnings growth, not next quarter
- H1 efficiency ratio under the 60% target
- Absence of guidance is itself a finding

CEO David Solomon, CFO Denis Coleman · Q2 FY2026 call

Every line comes from a cited, number-checked answer (transcript + speaker + date). Nothing is from the AI's own memory.

Richer context, same disciplined verdicts
